“ Meet with Decision Makers

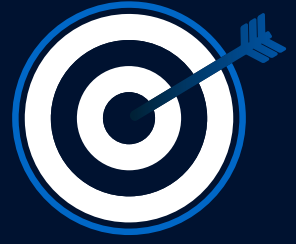

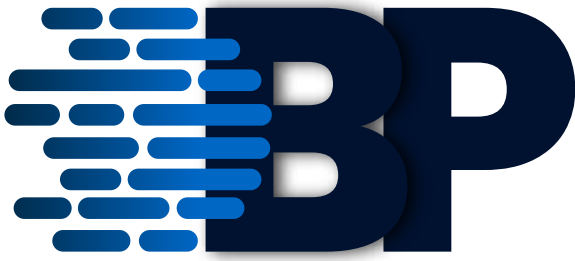

DBP also presents an important opportunity to review the latest local, regional and international experiences in the field of digital banking services, and to discuss regulatory and legislative frameworks, cybersecurity and data protection requirements, in addition to the role of innovation and technology in building a more transparent, efficient and sustainable financial system.

This summit aims to highlight the reality and future of digital banks and digital payment systems in Iraq, by bringing together a select group of decision-makers, banking leaders, experts, financial technology (FinTech) companies, and electronic payment solution providers, in a comprehensive national dialogue platform to discuss the opportunities and challenges associated with digital transformation in the financial sector.

This event confirms the importance of partnership between the public and private sectors in supporting the digital transformation process, stimulating investment in smart financial solutions, and enabling individuals and institutions to access safe and easy financial services, which contributes to supporting the national economy and achieving sustainable development in Iraq.

Digital Iraq is a stronger Iraq. Participate in the summit to help build a more inclusive, transparent, and resilient financial future for all.
